EXPERIENCE

BHP | CYBERSECURITY ANALYST

Late 2023 - Present | Melbourne, Australia

In my role as a Cybersecurity analyst at BHP, I assist in the team responsible for the development of in-house tool(s) that enumerate and scan perimeter assets (e.g. subdomains, web facing servers), having lead improved efficiency by over 90% automating the effort of an entire team. I am also responsible for developing multiple customized Notable Splunk queries every month.

- Continued usage of Splunk Processing Language (SPL).
- Creation of multiple internal tools and setup of environments for usage by level 2 analysts.
- Usage and automation of OSINT tools such as Gowitness, Bbot, Nuclei, and more.

THE LAB | MENTOR

April 2019 - November 2023 | Frankston

The Lab is a technology club for young people with Autism or Asperger's Syndrome who enjoy working with computers and games.

- Teaching programming with microcontrollers (Arduino).
- Teaching and sharing my knowledge about the basic concepts of circuitry and electrical components.
- Mentoring younger people with high functioning autism to help with building friendships and increased social participation and engagement.
- Assisting young people with exploring new areas of interest.
